

Endless Summer

Cascada

It feels like paradise
The world is closin' in
It feels so right I start to fantasize
Of what we're getting in
'Cause now you're mine
This is our time It's an endless summer
Boy, I want you close to me
In an endless summer
We'll make love and we'll be free It's an endless summer
Boy, I want you close to me
In an endless summer
Now it's time for you and me
Endless summer My heart beats stronger now
Now you're by my side
I'll hold you tight Please let me show you how
We'll grab a ray of light
'Cause now you're mine
This is our time Endless summer
Boy, I want you close to me
In an endless summer
We'll make love and we'll be free It's an endless summer
Boy, I want you close to me
In an endless summer
Now it's time for you and me
Endless summer
