Comeback

Taproot

Ill times rollin' lackin' the flow, ache in my throat
And wisdom seems so lost, yet it's better in ways it's different
I miss those old school meditations when relaxing
And getting visions was a given
I propose a toast to myself to find the time to ask my Lord and galaxyTo come back to me, please come back
I need to say goodbye to these old ways
Stagnant lifestyles no longer in my way
I need to keep on movin', so I prayAnd wait for a sign from my guides
They help me proceed as I lay
And dream of my future, I miss those timesCome back to me, come back to me
Please come back to me
Please come back to me pleaseBeen so busy lately achieving what I need
So in a way it's replacing the old, it's different but that's okay
Because I feel the need for change againIt's time to comeback to me, please come back
I need to say goodbye to these old ways
Stagnant lifestyles no longer in my way
I got to keep on movin', so I prayAnd wait for a sign from my guides
They help me proceed as I lay
And dream of my future, I miss those timesSo I pray
And wait for a sign from my guides
They help me proceed as I lay
And dream of my future, I miss those timesCome back to me, come back to me
Please come back to me
Please come back to me pleasePlease come back to me
Please, please come back to me
Please come back
Please come back
Please come back to me
Come back to me
Please come back to me
Please, please come back to me
Please come back to me
Please
