

We Won't Be Quiet

David Crowder Band

You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing Well shout it out loud from a rooftop
We won't be quite
We've fallen for You hard and we can't stop
We won't deny it You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing Well shout it out loud from a rooftop
We won't be quite
We've fallen for You hard and we can't stop
We won't deny it Well shout it out loud from a rooftop
We won't be quite
We've fallen for You hard and we can't stop
We won't deny it
