We Won't Be Quiet

David Crowder Band

Youre everything we could ever want

Youre everything we could ever need

Youre the reason were coming here

Youre the reason were gonna sing Youre everything we could ever want

Youre everything we could ever need

Youre the reason were coming here

Youre the reason were gonna singWell shout it out loud from a rooftop

We wont be quite

Weve fallen for You hard and we cant stop

We wont deny itYoure everything we could ever want

Youre everything we could ever need

Youre the reason were coming here

Youre the reason were gonna singYoure everything we could ever want

Youre everything we could ever need

Youre the reason were coming here

Youre the reason were gonna singWell shout it out loud from a rooftop

We wont be quite

Weve fallen for You hard and we cant stop

We wont deny itWell shout it out loud from a rooftop

We wont be quite

Weve fallen for You hard and we cant stop

We wont deny it
