

I Always Will (Brennan's Song)

Gloria Loring

In the way that the fragrance clings to a flower
In the way that a minute is held in an hour
In the same way my heart understands what is true
Nothing is closer to me than you

As certain as fire is home to the flame
As sure as we all are a link in the chain
As the river is always embraced by the sea
Nothing is closer to you than me

And for all my life and for longer still
Iâ€™m gonna be with you, I always will
And in every dream that your years fulfill
Iâ€™ll be with you, I always will

So whenever youâ€™re lonely and feeling small
Just sit very still and then recall
That you have been loved as much as Love will allow
And remember the heart that is making this vow
Iâ€™ll be with you, I always will
