Chicken Pox

Booker T. & the MG's

Well, as a kid I had the chicken pox
The German measles and the scarlet fever
And I don't ever wanna go through that againI had to tell my little broken heart
I had to tell it I'm immune to love
'Cause I don't ever wanna go through that againYou can't have it, once you had it
You can't have it, once you had it
You can't have it, once you had it, noYou can't have it, once you had it
You can't have it, once you had it
You can't have it, once you had it, noWell, as a kid I had the chicken pox
The German measles and the scarlet fever
And I don't ever wanna go through that againI had to tell my little broken heart
I had to tell it I'm immune to love
'Cause I don't ever wanna go through that againYou can't have it, once you had it
You can't have it, once you had it
You can't have it, once you had it, noYou can't have it, once you had it
You can't have it, once you had it
You can't have it, once you had it, no
