

# Chicken Pox

## Booker T. & the MG's

Well, as a kid I had the chicken pox  
The German measles and the scarlet fever  
And I don't ever wanna go through that again I had to tell my little broken heart  
I had to tell it I'm immune to love  
'Cause I don't ever wanna go through that again You can't have it, once you had it  
You can't have it, once you had it  
You can't have it, once you had it, no You can't have it, once you had it  
You can't have it, once you had it  
You can't have it, once you had it, no Well, as a kid I had the chicken pox  
The German measles and the scarlet fever  
And I don't ever wanna go through that again I had to tell my little broken heart  
I had to tell it I'm immune to love  
'Cause I don't ever wanna go through that again You can't have it, once you had it  
You can't have it, once you had it  
You can't have it, once you had it, no You can't have it, once you had it  
You can't have it, once you had it  
You can't have it, once you had it, no
