

# Catch The Breeze (Live Reading '91)

## Slowdive

Feels like all the days are gone  
Just catch the breeze  
You know it had to fall  
Rain, washes, ways down  
And I, I want the world to pass  
And I, I watch the wind to fly  
You can believe in everything  
You can believe it all  
Hey, are you feeling something new  
Just watch the rain, it helps in all you do  
The breeze, it blows, it blows everything  
And I, I want the world to pass  
And I, I want the sun to shine  
You can believe in everything  
You can believe it all
