

Cheat Away

Treble Charger

Say what you want about it, it isn't true
Just concerning me and you
Is it any wonder anyway
And nothing else to do? If you see it any other way
First you can go
Later you can fake it so why make it any harder?
Just tell them Everything you know
Is it wise to make amends
No surprise
You're among friends So say goodbye
And find a place
You'll keep hidden somewhere
Cold and deep Don't disappoint us all
And cheat away your time Why does everyone ignore it
It won't go away
It'll get you through the day
Doesn't anybody know by now There's never anything to say
Is it wise to make amends
No surprise
You're among friends So say goodbye
And find a place
You'll keep hidden somewhere
Cold and deep Don't disappoint us all
And weep for old times Save a cry, you'll need it in a week
And every holiday retreat
Don't disappoint us all
And cheat away your time I'm looking down the tunnel
But I can't see the light
