

# Giddyup

## Baha Men

Giddyup, hit um up, what part of party, don't you understand  
Let your body move just shake it up  
Get yourself in motion I'll tell you what  
Raise your hands up high drop your hands down low  
Just follow me now, 'cause it's time to go  
Come on everybody, get it together  
Don't wait forever, it's now or never  
Giddyup, saddle up, what part of party, don't you understand  
Work your body  
Giddyup, saddle up, come on work your body like you know you can  
Come on work your body  
Come on girl sweat, move with me  
Come on girl, sweat  
What part of party, don't you understand  
Let me tell you 'bout this place, I go to party
