I Walk Alone

Raw Solution

I walk alone
I walk alone
Can't see that I'm just bad to the bone
I walk alone
Straight to the top and no one gonna stop me
You're a non believer
You say I shouldn't be here
I dont need you I walk alone
The higher that I climb, the hotter you will fall
In the end I show you that I am stronger than you know
Dreams that are made to be, laid where I see
My willest strong I'd make believe
I walk alone
Can't see that I'm just bad to the bone
I walk alone
Straight to the top and no one gonna stop me
You're a non believer
You say I shouldn't be here
I dont need you I walk alone
The higher that I climb, the hotter you will fall
In the end I show you that I am stronger than you know
Take, you can take my will to succeed now
Watch me as I prove my ground
I walk alone
Can't see that I'm just bad to the bone
I walk alone
Straight to the top and no one gonna stop me
You're a non believer
You say I shouldn't be here
I dont need you I walk alone
The higher that I climb, the hotter you will fall
In the end I show you that I am stronger than you know
You're a non believer
You say I shouldn't be here
I dont need you I walk alone
The higher that I climb, the hotter you will fall
In the end I show you that I am stronger than you know
