

# The King's Table

## Sandra Payne

Sandra Payne - King's Table

ooh ooh ooh

A covenant was made between two friends

What's mine is yours

What's yours in mine

Till the end

Jonathan was killed in battle

David became the king

He wanted to keep his promise

More than anything

Jonathan's son was brought before the throne

The King was moved and loved him as his own

He said "I'm just a cripple, as lonely as can be"

David said, "you're now my son and you will dine with me"

Cho

You've got a right to sit at the King's table  
you've got a place and it's time to take it back

Don't settle for the crumbs from the table

you don't need to live a life of lack, no  
what is yours is what God has promised

For the Lord He wants to surely bless

You've got a right to sit at the King's table

So don't settle for anything less

3

A covenant was made with you and me

When Jesus bled and died at calvary

Now we're no longer servants

But heirs to everything

Adopted into royalty

We're children of the King

Cho

You've got a right to sit at the King's table  
you've got a place and it's time to take it back  
Don't settle for the crumbs from the table  
you don't need to live a life of lack, no  
what is yours is what God has promised  
For our Lord He wants to surely bless  
You've got a right to sit at the King's table  
So don't settle for anything less

Oooh  
oooh

cho

You've got a right to sit at the King's table  
you've got a place and it's time to take it back  
Don't settle for the crumbs from the table  
you don't need to live a life of lack, no  
what is yours is what God has promised  
For our Lord He wants to surely bless  
You've got a right to sit at the King's table  
So don't settle for anything less

You've got a right to sit at the King's table  
So don't settle for anything less
