Hiss The Villain

Sparta

It's so early in our lives
For such a waste of time
Such a waste of breathAn' we can shake our fists in vain
Scream an' lose our voice
It's our choiceOh, this is forever
This ring will never leave this hand alone
An' I promise youOh, this is forever
This ring will never leave this hand again
An' I promise youHopefully life goes on
We'll meet up in the end
Worn outWe can sit and watch the world
Spinnin' on its point
Smile on itOh, this is forever
This ring will never leave this hand alone
An' I promise youOh, this is forever
This ring will never leave this hand again
An' I promise youThese situations come and go
I'll do my best, I'll do my best
We'll settle down and focus now
I'll do my best, I'll do my bestI keep forgettin' why we fought
We'll make amends somehow
Sittin' next to youYou know the honor would be mine
To share your arguments
For all of timeOh, this is forever
This ring will never leave this hand alone
An' I promise youOh, this is forever
This ring will never leave this hand again
An' I promise youThese situations come and go
I'll do my best, I'll do my best
We'll settle down and focus now
I'll do my best, I'll do my bestWe'll settle down and focus now
I'll do my best, I'll do my best
We'll settle down and focus now
I'll do my best, I'll do my best
