

# As Always I Remain

## Night Ranger

Here I am my heart in a sling  
Holding on to memories wondering what might have been  
There you are lost in a dream full of life  
Yet loneliness has caused you to bleed I know where there's room enough for two  
Take a trip to where we've been  
The water's hushed underneath the bridge again As always I remain So where are we now  
Life is just a daisy chain your innocence my lost refrain  
And where are we now  
Never said you'd stay the same as always I remain A sudden call it's the end of the line  
Or is it just the start of something maybe we'll see  
Where will you go and who will you be  
Me I'll just be singing songs, crossing fingers  
There's always something going on As always I remain, yeah  
As always I remain, yeah So where are we now  
Life is just a daisy chain your innocence my lost refrain  
And where are we now  
Never said you'd stay the same as always I remain I must admit I'm an untimely man  
Appearing to calloused to all  
There's a right way a wrong way  
As always I will remain on this road right or wrong, yeah yeah So where are we now  
Life is just a daisy chain your innocence my lost refrain  
And where are we now  
Never said you'd stay the same as always I remain As always I remain, oh  
As always I remain
