

# Hollow

## Dub Vision

Tell me how come I'm surrounded by  
All these echoes bouncing off the sky  
When she takes me down abandoned streets  
I'll Follow

As the demon plays his violin  
A string of sound repeats from deep within  
I can feel the space embracing me  
I'm Hollow

Where the darkness fall asleep  
Steal my heart away from me  
And hold me while you rip my soul apart  
Yeah

I'm hollow  
I'm hollow

Where the darkness fall asleep  
Steal my heart away from me  
And hold me while you rip my soul apart  
Yeah

I'm hollow  
I'm hollow
