

# Bad Boys

Zara Larsson

Ask me to stay and I'm not gonna leave  
Don't make me wait with my heart on my sleeve  
Cause I won't go 'less you want me to  
I'll surrender it all for you Friends turn to foes I don't know who to trust  
You say I worry, I worry too much  
But I can't help what I'm feeling now  
I just want us to be somehow I said there's something 'bout the bad boys  
That makes the good girls fall in love  
I said there's something 'bout the bad boys  
That makes the good girls fall in love Clear as a crystal and sharp as a knife  
Words will be words 'til you bring them to life  
Show the whole world that you're mine alone  
Tell 'em girls to go find their own I said there's something 'bout the bad boys  
That makes the good girls fall in love  
(And if you're no good for me)  
I said there's something 'bout the bad boys  
That makes the good girls fall in love  
(And if you're no good for me) Don't leave me stranded  
(And if you're no good for me)  
Don't leave me on  
(And if you're no good for me)  
I'd rather feel abandoned  
(And if you're no good for me)  
Then please be gone I said there's something 'bout the bad boys  
That makes the good girls fall in love  
(And if you're no good for me)  
I said there's something 'bout the bad boys  
That makes the good girls fall in love  
(And if you're no good for me)
