

Had To Make You Mine

Cheap Trick

I had to make you mine
I've wasted all this time
You know that I'm so glad
Just to have your love I'm telling all the world
That you're my little girl
You know I must be mad
Just to have your love When I dream of you
All my dreams come true
You are my night, my day
I'm lost when you're away Can you hear my heart?
It's calling you
(It's calling you)
Oh girl, oh, little girl I had to make you mine
I've wasted all this time
You know that I'm so glad
Just to have your love I'm telling all the world
That you're my little girl
You know I must be mad
Just to have your love I thought you'd like to know
You've heard this all before
So even if I'm wrong
I'm right where I belong Can't you hear my heart?
It's calling you
(It's calling you)
Oh girl, oh, little girl I had to make you mine
I've wasted all this time
You know that I'm so glad
Just to have your love I had to tell the world
That you're my little girl
You know I must be mad
Just to have your love I had to make you mine
I've wasted all this time
You know that I'm so glad
Just to have your love I had to make you mine
I had to make you mine
