Movie Clock Star

Braid

movie clock star
i bet you go far
if they let you
your actions really make you seem
like everything's clean cut
you're just
so hard to see (through)
please, please, please
everyone on their knees
keep watching the clock
keep keep watching the clock, keep watching the clock son
your time will comesoon you grew
(crouch to catch the falling star that you are)
the sooner you grow
the sooner you go awaymovie clock star
i hope you
hate who you are
i told you so far
i sympathize, sympathize
with everything
except the usual lies
move, move, move through life
with a plastic will
it's funny until
someone loses a friend
it's times like this when
i'm wishing i was you again
and it's only eleven tensoon you grew
(crouch to catch the falling star that you are)
the more that you give
the more i want you to go awaywe're killing the sound
we've killed it already
killing the sound
we've killed it already
you're killing the sound
we've killed it already
killing the sound
we've killed it already
killingonly your heart is worth the glorya summer of sound

a circus of circuits
forget all the why
a coffin of car parts
a cast iron carnival ride
a sighfull of cinders
a treefull of tinder
forget all the hasbeens
a make out party
let's get things started
forget all the how
and clap for the cash nowwe fish for a flashlight
we stay for the shave
we stand up and wave
we're screening the screams
and floor the fuses
with moviemusic
we get into circles
and swear for the squares
and we're almost there
april's pills
make mazes in may
so we cross our fingers
and pray for the daysign me away
take this time away
