

Blue Crystal Glow

Jewel

Wintertime is here
Bringing Christmas cheer
From the sky, a gentle snow
On the ground, blue crystal glow Whistling winter wind
Brings Santa's gift-filled sleigh
Tiny ears strain to hear
The magic flight of reindeer I walk along mirror horizon
White sky, white earth
I feel small, perfectly so
Me, my thoughts, and I Of all twinkling lights,
The brightest are our eyes
White puffs 'gainst the frozen sky
Rise softly as an angel's sigh
From the sky, a gentle snow
On the ground, blue crystal glow
