I cross the oceans, I cross the seas  
I cross the mountains like a new disease  
I cross the borders, I cross the line  
Never to see the light 'til the end of time I've seen the canyons, I've seen the cities  
I've seen the prisons that take such pity  
When it comes to you, when it comes to me  
It's just money that will set you free Hey my children  
What seems important won't last forever  
Hey my children  
What seems important won't last forever Take a look at the earth from a plane  
You'll see the earth cut up and in pain  
Take a look at L.A. from the sky  
What you see should make you cry Hey my children  
What seems important won't last forever  
Hey my children  
What seems important won't last forever I'm the scum of the earth  
I'm the scum of the earth  
I'm the scum of the earth  
I'm the scum of the earth I'm the scum of the earth  
I'm the scum of the earth  
I'm the scum of the earth  
I'm the scum of the earth I'm the scum of the earth  
I am a cancer  
I'm the scum of the earth  
I am a cancer I'm the scum of the earth  
I am a cancer  
I'm the scum of the earth  
I am a cancer I'm the scum of the earth  
I am humanity  
I'm the scum of the earth  
I am humanity I'm the scum of the earth  
I am humanity  
I'm the scum of the earth  
I am humanity Hey my children  
What seems important won't last forever  
Hey my children  
What seems important won't last forever Hey my children  
What seems important won't last forever  
Hey my children

What seems important won't last forever
