Advisory - the following lyrics contain explicit language:

I know where we're going  
I know where we've been  
I just want you showing  
Showing off your skin, your skin  
I see what you're wearing  
I don't give a damn  
I just want to touch you  
Touch you with my hands, my hands  
Come on closer, girl  
You know I'm talking to you  
I wanna know ya, girl  
And everything you do  
I wanna know ya, oh yeah  
I wanna know ya  
I can see your makeup  
Running down your face  
Whisper till you wake up  
Then I'll get a taste, a taste  
Come on closer, girl  
You know I'm talking to you  
I wanna know ya, girl  
And everything you do  
I wanna know ya, oh yeah  
I wanna know ya  
Drink until we're sober  
Smoke until we're straight  
Pinch me when it's over  
I can hardly wait  
Come on closer, girl  
You know I'm talking to you  
I wanna know ya, girl  
And everything you do

I wanna know ya, oh yeah  
I wanna know ya  
I can feel your fingers  
Running down my back  
We'll drink all the liquor  
Paint the carpet black on your back  
Come on closer, girl  
You know I'm talking to you  
I wanna know ya, girl  
And everything you do  
I wanna know ya, oh yeah  
I wanna know ya
