

Work It

Rose Royce

Ain't gonna come easy
From the outside
Lookin' in at a crazy dude
You got to work it
Turn the situation
Into what you want her to
Oh way the beauties are of many
And even then You need to work on it too
And there we surely be substatic
If it's not me, you broke in two
I found out
Oh you can relax
There's no doubt, there's no doubt
Just don't, don't take a pass You got to work it
You got to make it around
You got to judge it
So look n' settle it down
You got work it
You got to bring it around
You got to check it So look n' settle it down
Our love is like fire
No doubt about it even from the dawn
When it's low and higher
Got to stick with it till you open the house Things don't come easy
From the outside
Lookin' in at a crazy dude
You got to work it
Turn the situation.
Into what you want her to Don't give up
Don't let it go
Don't you wanna go
Cos' don't you know
You got to work it
You got to make it around
You got to judge it
So look and settle it down
You got to work it
You got to bring it around
You got to check it

So look and settle it down Work it
You got to work it
You got to make it around
You got to judge
So look and settle it down
You got to work it
You got to bring it around
You got to check it
So look and settle it down
Work it (and let me see you do it)
Work it...
