

Its Been So Long (feat. George Martinos)

Jay-C Richards

It's been so long
since i have seen your heart
When u just crossed
My mind and heart
It's been so long
since i have seen your face
When u just crossed
My mind and heart
I've made it clear to start and go
So no one can deal ever trough
Would you try so hard to reach me
I've made it clear to start and go
So no one can deal ever trough
Would you try so hard to reach me
When you'll be in my mind and heart
It's been so long
Since we made that love together
And forgot the time in the dark
I've made it clear to start and go
So no one can deal ever trough
Would you try so hard to reach me
I've made it clear to start and go
So no one can deal ever trough
Would you try so hard to reach me
When you'll be in my mind and heart
