

Sweetheart

Katastrophy Wife

Sweetheart

What does it feel like

So good the Devil even got a start

Hot crotch out for a nice walk

Talk lots never did with you

Good God I had the guts to

So glad I finally got to fuck with you

Sweetheart what did it feel like

So good the Devil even got a part I have secret-secrets

Three nine's bent on coming through

9 lives come to follow you

Stand in back just to get in front of you

My man, he is a Mexican

He is just was my only friend

You have the need to apprehend me

Although you have no comprende
