

Serious Reggae Business

Lucky Dube

We've been talking about it
Where it came from?
We've been talking about it
How it started? Wait a minute
It doesn't matter now
Where it came from
And how it started? But what matters is
We have seen it going all over the world
We have seen it chanting down Babylon
We know where it's been And we know where it's going, oh, yeah
We talking about Serious reggae business
Serious reggae business
Serious reggae business Some say it came from Jamaica
Some say it came from Africa
Some say it came from England
Some say it come from I don't know where But we know where it's been
And we know where it's going
And we know what it's done
Doesn't matter where it comes from
I'm talking about Serious reggae business
Serious reggae business
Serious reggae business Serious reggae business
Serious reggae business
Serious reggae business Serious reggae business
Serious reggae business
Serious reggae business
