Good Fortune

Todd Snider

May some good fortune come to you
May some good fortune come to you
May some good fortune come to youShes always thinking up something when I'm feeling down
She knows just what to say to pull me through
Looking like Booker T and the MG's sound
There ain't nothing my girl cant doNot to change the subject but have you seen my shoes
I think I left them here the last time I played
Sometimes I feel like all I ever get to do is lose
Sometimes I feel like I've got it madeMay some good fortune come to you
May some good fortune come to you
May some good fortune come to youPeople say that life is precious
And you have make to make the most of it
But nobody's proven either thing
When you stand back and look at the long and the short of it
What else is there to do but singMay some good fortune come to you
May some good fortune come to you
May some good fortune come to youDo you think that there's a kid in this whole entire town
Dreaming of being a bum
I didn't think you did but we both know how
That is exactly what some will becomeEnough about me lets talk about you for a minute
OK maybe that's long enough
But getting back to me
My all time favorite movie
Is that one where those two cops
Who at first cant stand each other
Later under pressure
Learn to work together
Become great partners even better friends
Then that one says something funny and the movie ends
May some
Good fortune come to you
