Slaves

Suicide Commando

our life is a torment
paved with sorrow and pain
we are the martyrs
slaves of money and greed
we are the victims
cursed to live in hell
obey the system
show me the face of hellwe are the slaves of society
oppressed by god
remove the stone of eternity
obsessed by god
we are the slaves of humanity
oppressed by god
remove the stone of eternity
obssessed by goddon't try to help me
don't care, there's really no use
this is the hurting
our fate to be abused
we are the tortured
we'll carry the cross of pain
we are the haunted
return to dust in vainwe are the slaves of society
oppressed by god
remove the stone to eternity
obsessed by god
we are the slaves of humanity
oppressed by god
remove the stone to eternity
obsessed by god
