Goodbye Blue Monday

Econoline

And so
It starts
And like the rest
It too will end
It will my friend
And if my eyes start turning white
At least I'll know that you thought
I thought I was rightThere was
A time
When I thought
I was king
You could be queen
So it's a bad time to hear
It's gonna be a long
And lonely year
And if you can't tell me how you felt
It's probably better I make it up myself
Because if I thought you loved me once
Then I'd be happy
ForeverAnd who will right
And who will fight
For this man
I know I am
And if you're running out of space
Please don't erase your time with meAnd tell me
Just like you would
If we were kids
Those things we did
Because it's a god's thing to see
When you're with me
Way back whenAnd if you can't tell me how you felt
It's probably better that I make it up myself
Because if I thought you loved me once
Then I'd be happy
Forever
