

Getting Late

Rob Thomas

This life keeps moving on
Gone away before too long
So tell your friends just how you feel
You'd better say it loud for the world to hear 'Cause it's getting late, it's time to go
The paper moon is fading slow
But the night, it keeps moving on
'Til it takes you in; it brings you home While you're watching over
The moments that make up your life It's getting late, that's the way it is
You can't deny when it feels like this
And it's strange what it's bringing out
You're gonna open up, 'cause you can't stop now
Oh, you can't stop now It's getting late, you don't know how
You're wide awake, but you're missing out
You get your kicks while you can
Then you go to work to pay the man While you're watching over
The moments that make up your life
It's getting late, it's getting late
It's getting late, oh yeah, it's getting late
