Borderline

The Veer Union

Im tired of being told to bite my tongue,
I wanna scream at the top of my lungs.Try, to speak, out loud, your silence me but now,
Ill stand my ground, Ill let you know that:
Im tired of being told to bite my tongue,
I wanna scream at the top of my lungs.
Its like a nightmare but Im lying awake,
Its got me thinking that I am borderline.
About to loose my mind
Its time to face my fear
And then I will make it disappear.The war in me you set this thing to die,
You set it free Ill let you know that:
Im tired of being told to bite my tongue,
I wanna scream at the top of my lungs.
Its like a nightmare but Im lying awake,
Its got me thinking that I am borderline.
About to lose my mind,
Its time to face my fear,
And then I will make it disappear.
Disappear.Im tired of being told to bite my tongue,
I wanna scream at the top of my lungs.
Its like a nightmare but lying awake,
Its got me thinking that I am borderline.
About to loose my mind,
And now you will see your time has come,
Pay for all this damage done,
Face my fear and then I will
Make you disappear.
Disappear.
