Final Days

Matt Wilcox

It's been a while
We've walked for miles
Living free
From reality
The darkest haze
Beneath the raze

And I will walk these final days
Upon the earth with you
I walk these final days upon the earth with you

I'm positive
We learn to give
With bread and wine
We crossed the line
The candle burns
For no return

And I will walk these final days
Upon the earth with you
I walk these final days upon the earth with you

The sun will shine
The cold wonâ€™t mind
The oceanâ€™s warm
Weâ€™ll bear the storm
Electric Clouds
Are singing loud

And I will walk these final days
Upon the earth with you
I walk these final days upon the earth with you

Mercury
Deep blue sea
Iâ€™m still alive
The meek survive
A glacial pace
We ran the race
We lost the sense

Of our intelligence

And I will walk these final days
Upon the earth with you
I walk these final days upon the earth with you

And I will cast one final gaze upon the earth with you.
