Rollin'

[Opm](#)

we just rollin
we just strollin
we just groovin to the next destination
nowhere to go nowhere to be
mirror mirror mirror on my car
tell me who be the biggest of them all
well ill be you and you be the BM
let the fools make their descions
no they take it with me
i dont need no 64 cause they be played out
give me a 5 iron and im gonna switch baby layed out
we just rollin we just strollin
we just groovin to the next destination
nowhere to go nowhere to be
just dippin through the streets of cali
we just rollin we just strollin
we just running to the next destination
nowhere to go nowhere to be
just an everday thing for OPM and me
i got the side to side
yo the front to back
15's in the trunk to let em know where im at
some call me fat some call me fatty
but they all know im a true baller rollin in this caddy
spinnin only true spokes about to play a big game
pay dealer with a pocket full of C notes
[chorus] X2
top down and listen to the sound
what they gonna say when we mash up the town
come on girls just a little bit closer

remember me from your OPM poster
i seen the stars in your eyes
yea theres a party baby down to ride
so come on girls 'cause your invited
all the nights (?) will be provided
we just rollin we just strollin
we just groovin to the next destination
nowhere to go nowhere to be

just dippin through the streets of cali
we just rollin we just strollin
we just running to the next destination
nowhere to go nowhere to be
just an everday thing for OPM and me
southbound on the 101
everday livin life for fun
right on right on
till the break of dawn
till the sun comes up or the wheels fall off
make it bounce make it hop but dont ever stop
drop top back in the coupe deville
headin for the sun
we just rollin we just strollin
we just groovin to the next destination
nowhere to go nowhere to be
just dippin through the streets of cali
we just rollin we just strollin
we just running to the next destination
nowhere to go nowhere to be
just an everday thing for OPM and me
