

# Breaking Out

## Hollowick

I am the atom bomb  
Oh just you wait and see  
'Cause I don't think you know  
Just what you do to me  
I am invincible  
With nothing left to lose  
You shouldn't play with the fire cause you just lit the fuse Here we go  
Another fight just like the ones before  
This time I really got you stuck under my skin  
And I can't take it anymore  
I'm breaking out Put down the cigarette  
Pick up the telephone  
'Cause i've been trying to call  
I know you're not alone  
You said you're with your friends  
I like the way you lie  
I'm parked in front of your house and you're with another guy Here we go  
Another fight just like the ones before  
This time I really got you stuck under my skin  
And I can't take it anymore  
I'm breaking out Can't stop me now  
I'm breaking out  
Can't stop me now Gasoline is in the air  
Take the match  
Strike anywhere  
I'm so high above the ground  
Light me up, can't stop me now Here we go  
Another fight just like the ones before  
This time I really got you stuck under my skin  
And I can't take it anymore  
I'm breaking Here we go  
Another fight just like the ones before  
This time I really got you stuck under my skin  
And I can't take it anymore  
I'm breaking out I'm breaking out
