

# Closer

## Pennywise

No answers  
Just questions  
This life defies expression No freedom  
No feelings  
I'm just a human non being Nothing left to chance  
Nothing left to try  
Just when I get closer then it's my turn to die  
Just when you feel alive (Feel alive) Just when I get closer  
I can feel it slipping away  
Just when I feel better  
That's when everything starts to change No chance to be, no chance to see  
What's left to say?  
Just when I get closer  
That's when it all slips away This problem I'm feeling  
Logic defies all reason  
Can't stop it, this pressure  
Gets worse just when I feel better Nothing left to chance  
Nothing left to try  
Just when I get closer then it's my turn to die  
Just when you feel alive (Feel alive) Just when I get closer  
I can feel it sleeping away  
Just when I feel better  
That's when everything starts to change No chance to be, no chance to see  
What's left to say?  
Just when I get closer  
That's when it all sleeps away  
Just when I think that things can change  
These answers drift and slip away  
Just one more chance to release for one more day  
These questions drift and slip away Just when I get closer  
I can feel it sleeping away  
Just when I feel better  
That's when everything starts to change No chance to be, no chance to see  
What's left to say?  
Just when I get closer  
That's when it all slips away Just when I get closer  
That's when everything starts to change (Starts to change)  
Just when I get closer  
That's when it all slips away (Slips away)

Just when I get closer  
That's when everything starts to change (Starts to change)  
Just when I get closer  
That's when it all slips away
