Devil Nights

Electric Six

[Incomprehensible]Devil nights, devil nights
Nights with the devil
Driving around the city
Everything is wrong
But you know it feels right
Spending all your money
On the electric light
Handing over your last dollar
Just to make the devil scene
Drinking all the drinks
Inside the devil limousine
Devil nights, devil nights
Nights with the devil
Driving around the city
Nights with the devil
Driving around the city
She was [incomprehensible]
You owe me money
She was [incomprehensible]
You owe me money
Rolling up into the club
Just to drop the devil mixes
Branding all the young girls
With triple sixes
Dance, dance, dance
Dance, dance, dance
Dance, dance
Nights with the devil
Driving around the city
Nights with the devil
Driving around the city
She was [incomprehensible]
You owe me money
She was [incomprehensible]
You owe me money
Devil nights, devil nights
Devil nights, devil nights
[Incomprehensible]You owe me money
