

Video Games

Novel

Verse 1:

It's 2012 she said let's pop a few pills, we can party hard like it's the end of the world.

I got weed, I got blow, let's get stoned for the last time, girl you said that shit the last time.

Brought a couple of bottles now she breaking them out, mixing henny with coke I'm just spinning around.
You really should hear the shit you say out your mouth, why can't we just lay on the couch & play some video games?

Pre-chorus:

Don't care about the past I, just wanna relax why, everytime we arguing you make me out the bad guy?

I just wanna smoke & drink with you, watch a little movie order dinner for two.

You know that I like the bad girls honey yes that's true. Heaven was a place on Earth with you but after all the things you put me through, you don't know what it's like to need somebody that don't love you....

So baby now we're through

now wer'e through

now we're through

Verse 2:

Shades cover her eyes, she's been high for days. Louis Vuitton glasses just to block out the rays.

Swinging with the All-Stars, living for fame, kissing in a blue dark haye.

All the diamonds in the world, all that wouldn't amount, spending all of your money faster than you can count.

Partying with your girls, all you do is go out, I can't wait to sit on the couch & play some video games.

Pre-chorus 2:

Don't care about the past I, just wanna relax why, everytime we arguing you make me out the bad guy?

I just wanna drink & smoke with you, maybe have a philly roll a blunt or two

You know that I like the bad girls honey yes that's true. Heaven was a place on Earth with you but look at all the bullshit you put me through, you don't know what it's like to need somebody that don't need you....

now we're through

Baby now we're through

now we're through

now we're through

Pre-chorus 3:

Don't care about the past I, just wanna relax why, everytime we arguing you make me out the bad guy?

I just wanna smoke somewhere with you, watch a little movie order dinner for two.

You know that I like the bad girls honey yes that's true. Heaven was a place on Earth with you but look at all the bullshit you put me through, you don't know what it's like to love somebody that don't love you....

So baby now we're through

now wer'e through

now we're through

now we're through

Bridge:

Sitting in a fast car, fuck all of you fast broads whistling my name...

They tell you what you wanna hear, Bitch get outta here I'm playing video games...
