

Glory Years

Madball

I'm trapped in this time machine
where everybody lives in the past
I press the button that says fast forward
But the machine just starts to laugh
I can't run Get me out of here
I can't run from The "glory years"
There's no glory without pain
You see the dark clouds Here comes the rain
Time is our friend just Forget the past
Time is our friend just live for now
Right now Forget the old-times
Although they've taught us well
Old rules apply to fools who die
From lack of progress you should rebel
I can't run get me out of here
I can't run from what got us here
The scars pain and blood remains
But I wear black to hide old stains
I said live for... Right now
I'm trapped in this time machine
I feel trapped in a vivid dream
There's no glory in living in the past
No glory if you don't last
On we go... Don't stop
