

# Never Is Such a Long Time

**Steve Hill**

Please don't say you could never believe me  
that you could never trust me again  
that I could never change  
that you'll never be the sameit's not too late  
how can it be when love is real?  
And don't say never darling, never is such a long time  
you might change your mind  
let me change your mind  
remember the good we've had  
that first night in that cheap motel  
I know you felt the way I felt  
you know you did, you know damn wellit's not too late  
how can it be when love is real?  
And don't say never darling, never is such a long time  
you might change your mind  
let me change your mind  
let me change your mindWhen the time comes you'll forgive me  
it happened before it can happen again  
When the time is right you'll finally see  
we could still be like we were back then  
it's not too late  
how can it be when love is real?  
but don't say never darling, never is such a long time  
you might change your mind  
let me change your mind  
never is such a long time  
such a long time  
please let me change your mind  
such a long time
