Two Together (feat. Connie Smith)

Nat Stuckey

[Nat]
If you're not in my arms then you're too far away
And when you're far away I'd get the blues
[Connie]
You're the first thing I think of at the dawn of day
And the last thing that I'll ever want to lose
[Nat]
Oh I start to weak all over when you're out of my sight
And I know till your return I won't feel better
[Connie]
So keep on loving me the way you do
[Nat]
Just as long as you want me to
[Both]
And we'll always be together
[Connie]
At times I know my feet don't even touch the ground
And it's because of you I feel this way
[Nat]
Hmm there's not a thing that I can think of that can keep me down
Just as long as I can see you every day
[Connie]
I've heard 'em say that true nearly always fades
Ah but we know something they don't we know better
[Nat]
So keep on loving me the way you do
[Connie]
Just as long as you want me to
[Both]
And we'll always be together
