

Stay (beside Me)

[Santana](#)

Stay beside me
Don't go away
'Cause if you leave me, I will lose my inspiration
I don't wanna be another victim of frustration
Stay, please guide me
I need your love so I can see
Below, above and all around is all confusion
You're the only one that breaks the spell of all illusion
Take me, I belong to only you
Your love's coming down like a gentle rain
To soothe my pain gently
Oh, won't you stay
Below, above and all around is all confusion
You're the only one that breaks the spell of all illusion
Take me, I belong to only you
Your love's coming down like a gentle rain
To soothe my pain gently
Oh, won't you stay
If you leave me, I will lose my inspiration
Stay, please guide me
I need your love so I can see
