Toxic

Sarah Darling

How did you just stop moving
There where you lost it all
Like you're watching the same old movie
And you missed your curtain call
How do you get off thinking
You could walk through my doorYou should know that it's toxic baby
We can never go back
There's a line don't you cross and save me
Save yourselfYou know I've long forgiven
But you won't forgive yourself
There's nothing here for you now
I'm keeping it on a shelfYou should know that it's toxic baby
We can never go back
There's a line don't you cross and save me
Save yourselfOohI'm no good for you
You're no good for me
You got to save yourself
It's what you got to doYou should know that it's toxic baby
We can never go back
There's a line don't you cross and save me
Save yourselfSave me
Save me
Save yourself
