I Let Go

Kate Alexa

holdin' on it does nothing for me
solid ground just makes me feel unsure
on the out i never get uneasy
nothing seems to scare me anymorethe look thats in your eyes
made you feel the same
my heart beat rases high
when you say my nameCHORUS
I let go when I know
theres no safety left below
I let go so I'm free to fall
and my feeling begins
in the way you make me spin
and it happens everytime I hear you call
I Let Goempty rooms threaten me with shadows
now the night it feels like a friend
I always was the girl who walked home backwards
so the journey never had to end
your smile is like a star that lights up all around
your wisper in the dark is now, now my favourite
soundCHORUS
I let go when I know
theres no safety left below
I let go so I'm free to fall
and my feeling begins
in the way you make me sway
and it happens everytime I hear you call
I Let Goyour like a stage about me
i don't have to change my crazy
cause you get the girl i wanna beI let go when I know
theres no safety left below
I let go so I'm free to fallCHORUS
I let go when I know
theres no safety left below
I let go so I'm free to fall
and my feeling begins
in the way you make me sway
and it happens everytme I hear you call
