

# Show Your Face

## Balance and Composure

C? mon with your body straight to the place surround me

And if you had ???.

So if you want to be my girl

You?d better show your face surround my world?

Wohoho

Show your face to me.

C?mon you the people come and dance to this sound tonight.

Let the music overwhelmed then you know it?s gonna be alright.

So if you want to be my girl

You?d better show your face surround my world?

Wohoho

Show your face to me.

So let the bureau know that the world is out

If you hear what I?m saying then come on and shout with me

Cuz every time I see your smile face, the face, the face, the music sets you free.

So if you want to be my girl

You?d better show your face surround my world?

Wohoho

Show your face to me.
