

Heaven Must Be Wondering Where You Are

[George Strait](#)

Somewhere up there beyond the blue
Surely by now somebody's missin' you
I found the angel they must be lookin' for
Heaven must be wondering where you are When I look into your eyes it's so plain to see
Nothin' here on earth describes what you mean to me
Out of this world when I hold you in my arms
Heaven must be wondering where you are Lucky me to be the one to find
Someone like you this side of paradise
I know how lost I'd be without you here sweetheart
Heaven must be wondering where you are When I look into your eyes it's so plain to see
Nothin' here on earth describes what you mean to me
Out of this world when I hold you in my arms
Heaven must be wondering where you are
