Girls Can Tell

The Crystals

Girls can tell if boys are true
By the things they say and do
And I can tell that you'll be true to meDon't you know it means so much
When I feel your tender touch
When you say that I look real fine
When you put your hand in mineWe will always be together
Stay in love forever, girls can tellGirls can tell if things are right
When they've kisses a boy goodnight
And I can tell that you're just right for meWhen it's time for you to go
Gee I'll always miss you so
I gotta kiss you one more time
I gotta hear you say you're mineWe will always be together
Stay in love forever, girls can tellEvery day I'll love you more
Than I did the day before
Listen, I will make you see
Just how much you mean to meEvery time I look at you
I just don't know what to do
And I wanna hold you tight
I wanna see you every night'Cause the stars that shine above me
I can say you love me, girls can tell
