

# Heavy Hand

## Social Club

(I love you  
Call me back!)  
Get it together D-Flow  
Stop telling me jokes

Watch out for the pineapples!  
Watch out for the pineapples!  
Gettin' too close to me!  
Gettin' too close to me!  
I said watch out for the...

Everytime I look at my phone and she calls  
No name, just six dragon-face emojis  
She says she hated me back when we dated  
But now she saw my Instagram and now she think we famous  
I'm not livin' that life  
Makin' it awkward, I'm killin' the vibes  
I was just saying goodbye, but shawty be followin' me like a line  
I'm not that kind of guy  
Got no entourage, and I'm ridin' solo  
Yeah, we can take a photo  
But I love God, and Imma let you know though  
The Alfred Hitchcock of emo hip-hop  
Watch the movies, I shut the sound off  
I'm with my goonies  
Truffle Shufflin' on every beat like John livin' through me  
I don't mess with groupies like these rappers do  
I'd rather have a wife and kids  
What made you think I was after you?

Whenever I'm out in these streets, bro you know I stay focused  
I'm using peripheral vision whenever I'm out and abroad  
But you already know this, you already know this  
It's Ferny and Marty, we early for soundcheck  
The line's ready right 'round the back  
Cause security's lurkin' from front to the back  
Alert, pineapple attack  
We them boys from the South, from plane to plane  
Up in Vegas in the mandalay, David Blaine

But I can't hide or disappear  
When they finally recognize me, it must be the beard  
I always get asked about duck calls  
You're lucky that I'm saved, and I love y'all  
And if I got a penny for everytime that they ask me a question about my beard I would be so boss  
Bro, I would be well off  
This is the life that I pray for, the life that I pray for for real  
So when somebody gets a little bit too excited  
We refer 'em as pineapples, it ain't hard to tell  
This is for you and your mom as well  
Social Club, yeah, it's us again  
Still reppin' for the kids on the bus again  
Dodgin' pineapples, but we got love for them  
Pineapples

---
