

# Life in a Day

## I Am Kloot

Life in a day  
Fleet of foot, full of grace  
Love, mercy miles  
Freedom fortune, such a filthy child  
Life in a day, life in a day  
Stick your jokes, your hoax in a box  
Chew the chains, loose the locks  
Lease your mind and find a better rate  
If freedom feels like a first mistake  
Life in a day, life in a day  
Life in a day  
See you hoof and move your feet of clay  
Let it go you know or let it break  
Freedom feels like a first mistake  
Life in a day, life in a day  
You got your education  
You got your education  
You got your education  
You got your education
