

Smile & Keep Your Head Up

Us The Duo

Spread out arms out and lift them high
Run like a airplane in the sky
We got worries but we ain't got time
To worry life away Call our friends up and tell them to
And let them know why you feeling blue
The troubles they get a hold on you
When you worry life away Lets a run a little bit faster
Hair blowing in the wind
There's feeling here all around us
We got to breathe it in
So just smile and keep your head up
Smile and keep your head up
Smile and keep your head up high
Don't worry life away Giving up is an easy out
Then you got nothing to pray about
Maybe sailing smooth but your sinking down
When you worry life away Grab a hold of your burdens why
Don't you throw it in up to the sky
Surrender them to make[?]
And kiss your worries goodbye Lets a run a little bit faster
Hair blowing in the wind
There's feeling here all around us
We got to breathe it in
So just smile and keep your head up
Smile and keep your head up
Smile and keep your head up high
Don't worry life away Smile and keep your head up
Smile and keep your head up
Smile and keep your head up
Smile and keep your head up
Smile and keep your head up
Smile and keep your head up
Smile and keep your head up
Smile and keep your head up
