# Save You

## E.lemental

It's only perfection
You're only running scared
You just might get there
You burn it
Deserve it
It's got a rope around your neck
It wants your last breath
God save you
Save you
Save you
God save you
Save you
You're bleeding
Receding
Believing every little lie
You're so tired
And it's hurting me
And it's hurting you
And it burns through
Every thing you touch
I miss you so much

God save you
Save you
Save you
I'm not blaming you
Blaming you
Blaming you
God save you
Save you
She's an innocent freak
She's an innocent freak
She's an innocent freak
And I'm bored
God save you
Save you
Save you
God save you
Save you

I'm not blaming you
Blaming you
Blaming you
God save you
Save you
Save you
God help me
Help you
