

# When I See You (Timberwolf)Â

## Sorority Noise

You had the brightest dream  
You were gonna be an artist  
Who plays in a band.

I guess all things change

When you're lying on the side of the road in the Everglades. How the hell did it make sense?

After you saw what Charlie went through.

Does hell taste as sweet as you thought?

Do you like what you are? I guess Dolly's not over it and you're not the person I loved  
Takes a lot more than "how've you been", to be my friend. You smell like hospitals.

And you look like bad news.

And if God is real

Then I hope he has a plan for you.

If the Devil's real

Let him know I asked how he's been.

'Cause when I rid myself of my demons the must have found a home in you.

If hell is real, then I hope you're enjoying your stay (x6)
